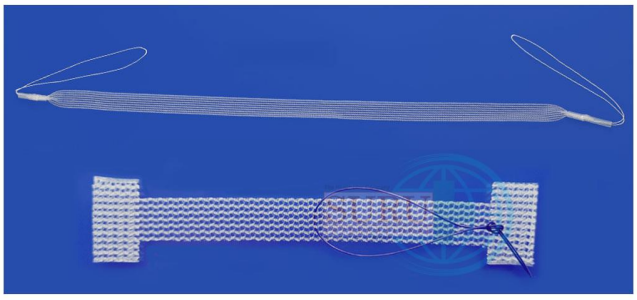
SURU INTERNATIONAL PVT. LTD.



FEMALE URINARY INCONTINENCE SET (SLING)

Product Name: Female Urinary Incontinence Set (Sling)

Item Code: 1030, 1031

Features :

- The device is meant for treating Stress Urinary Incontinence (SUI) resulting from urethral hypermobility and/or intrinsic sphincter deficiency in women
- Soft, but non-elastic monofilament polypropylene mesh which is firm enough lengthwise to provide the necessary support
- Optimally-sized pores that allow seamless tissue integration, thereby reducing risk of infection
- Streamlined draw loop design facilitate easier penetration
- Less tension at rest
- Provides excellent urethral closure
- Polypropylene Sling not absorbed nor it is subjected to degradation or weakening by the action of tissue enzymes

Available Configuration :

- Standard length : 1 cm x 45 cm, 1.5 cm x 45 cm
- Mini Sing size : 1.2 cm x 11.5 cm
- Available with or without limb
