

SURU INTERNATIONAL PVT. LTD.

FOLEY BALLOON CATHETER

Product Name: All Silicon Foley Balloon Catheter - SURUCATH PRO

Item Code: 2007

Features :

- Radio opaque tip for clear identification of the catheter position
- Additional silicone coating to ensure extra smooth penetration
- Uniform roundness throughout the length of the catheter tube
- Smooth tip facilitates painless insertion
- Balloon integration with the catheter is done with a special process to eliminate rough edges
- Comparatively bigger drainage lumen for better and increased Drainage flow than in standard latex catheter
- Uniform and larger inflation lumen for easy inflation and deflation of balloon
- 100% biocompatible silicone is used and therefore biological activity is nil
- Clear silicone material facilitates easy visibility of drainage
